| Project Name | Real-Time River Water Quality Monitoring and Control System |

The screenshot displays the IBM Cloud Dashboard interface. At the top, the browser address bar shows 'cloud.ibm.com'. The dashboard header includes the IBM Cloud logo, a search bar, and navigation links for 'Catalog', 'Manage', and the user's name 'Jagadheeshwaran K's ...'. A sidebar on the left contains various service icons. The main content area is titled 'Dashboard' and features a 'For you' section with five recommended cards: 'Build' (10 min), 'Set up your IBM Cloud account' (2 min), 'Use Cloudant' (2 min), 'Build and deploy Node.js apps' (15 min), and 'Architecture center' (5 min). Below this, there are four sections: 'News' (with links to IBM Storage price guarantee and tech news), 'Recent support cases', 'Planned maintenance', and 'IBM Cloud status' (showing a world map). A user profile dropdown menu is visible on the right, showing the user's name and options for profile, CLI/API login, privacy, theme change, and logout.
